FIT

PRIMARY RECOMMENDATION

Science with Maths

The strongest alignment across all streams evaluated for you.

SECONDARY RECOMMENDATION

Commerce with Maths

Commerce with Maths runs on the same numerical engine you've already shown — a genuine alternative, not a consolation.

WHY THIS RECOMMENDATION

- ✓ Your answers kept returning to the same three places: mathematics and logic, money and how it moves, and computing.
- ✓ Your measured ability points the same way — near-perfect accuracy on the numerical, logical and data problems.
- ✓ When what you enjoy and what you're demonstrably good at agree this strongly, Science with Maths stops being a guess.

INSIDE YOUR COMPLETE REPORT

- ✓ All 18 parameters — analysis & personal plan
- ✓ Your career matches, ranked with roles
- ✓ Class 11–12 subject & exam roadmap
- ✓ Your 6-month improvement plan
- ✓ Strengths reinforcement & parent guide
- ✓ What not to worry about — and why

ASSESSMENT SNAPSHOT

Your profile across four core areas

Academic Strengths & Subject Affinity		50%	MODERATE
— Your measured ability runs far ahead of this number — page three of this report explains why that gap matters.			
Aptitude, Cognitive Ability & Logical Reasoning		73%	MODERATE
Interests, Personality & Working Style		84%	STRONG
Context, Motivation & Decision Certainty		95%	STRONG

100% · STRONG

WHAT THIS MEASURES

The speed and accuracy with which you grasp mathematical relationships and use them to solve problems you haven't seen before.

WHAT YOUR SCORE SAYS

A perfect score. You process quantitative information faster than you probably realise — this is the single strongest signal in your entire assessment, and it's the anchor of both streams recommended to you. Results like this aren't a lucky day; the questions are designed so that guessing can't produce them.

KEEP IT UP

- This is already working — you're the best judge of how to keep it sharp. One idea if you want it: one olympiad-style problem set a week keeps the edge without adding study load.
- Pair the ability with applied contexts — a bit of coding or a finance game converts raw speed into depth.

LOCKED IN YOUR COMPLETE REPORT

Logical Reasoning	what your 100% unlocks
Verbal Ability	why 20%, and how to close it
Data Interpretation	what your 100% unlocks
Scientific Reasoning	flagged as your exploration focus
Working style & personality	4 parameters, each with a personal plan
Subject affinity & academics	3 parameters, each with a personal plan
Motivation & decision certainty	5 parameters, each with a personal plan

All 18 parameters analysed in your complete report — each with a personal plan.

ONE THING IN YOUR RESULTS WORTH A CONVERSATION

Ability at 100, comfort at 42 — why the gap?

100%

Numerical Ability

vs

42%

Academic Comfort

Your measured ability is close to perfect, but your comfort with school subjects runs far behind it. Profiles like yours usually mean one thing — the work in front of you isn't stretching you, and boredom is wearing a disguise. Class 11 will either fix that automatically with harder material, or widen it with more memorisation.

A stream corrected after Class 11 costs a full academic year. A 45-minute session costs an evening.

WHAT YOUR 1-TO-1 SESSION COVERS

- ✓ Resolve the pattern above — exposure, method or interest
- ✓ Lock the subject combination against your school's offerings
- ✓ Set the exam target early, mapped from your aptitude pattern
- ✓ Leave with a written plan agreed with your parents
